Item	Description	Order No.
HVF-V44-G-PG11	Amplifier 40/32 dB, switchable, remote powering, VF-KDG class D4.4	81217405
HVD-44	Amplifier 40/32 dB, switchable, local powering, VF-KDG class D4.4, with equalizer and level control	81217368
HVF-44-G-Ff	Amplifier 40/32 dB, switchable, remote powering, VF-KDG class D4.4, with equalizer and level control	81217415
HVB-21	Amplifier 25 dB, VF-KDG class B2.1, permanently installed adjustable attenuator and equalizer, precorrection of the outgoing cable lines through interstage slope possible	81217351
HVB-22	Amplifier 25 dB, VF-KDG class B2.2, permanently installed adjustable attenuator and equalizer, precorrection of the outgoing cable lines through interstage slope possible	81217369
HVB-31	Amplifier 31 dB, VF-KDG class B3.1, permanently installed adjustable attenuator and equalizer, precorrection of the outgoing cable lines through interstage slope possible	81217352
HVB-32	Amplifier 32 dB, VF-KDG class B3.2, permanently installed adjustable attenuator and equalizer, precorrection of the outgoing cable lines through interstage slope possible	81217353
HVC-32	Amplifier 30 dB, VF-KDG class C3.2, permanently installed adjustable attenuator and equalizer, precorrection of the outgoing cable lines through interstage slope possible	81217354
HVC-42	Amplifier 40 dB, VF-KDG class C4.2, permanently installed adjustable attenuator and equalizer, precorrection of the outgoing cable lines through interstage slope possible	81217355
HVC-43	Amplifier 40 dB, VF-KDG class C4.3, permanently installed adjustable attenuator and equalizer, precorrection of the outgoing cable lines through interstage slope possible	81217356
HV-12-V3	Broadband CATV amplifier 20 dB, VF-KDG class D1.1	81217026
MÜP-1-F	Remotely powered distribution amplifier, VF-KDG class D1.2	81217018
MÜP-1-O	Locally powered distribution amplifier, VF-KDG class D1.2	81217020
