- Removes dust, dirt and other dry contaminants from various surfaces
- Safe to use on plastics
- Non-flammable
- Ozone friendly
- Can be used overhead
- FCKW-/HFCKW-free
- Spray can contains 200 ml

Order No. **55680106**

TB-80875 swab moistener

- Miller swab moistener PE
- Empty
- With metal flap

Order No. **55680107**

Quick-Click cleaner

The Jonard Quick-Click cleaner is designed for exceptional cleaning performance on the fiber optic connectors, the core of the fiber and the contact surface of the adapters or connectors of the fiber. The firmly attached dust cap provides optimal protection for the microfibers cloth as well as the adapter. This glass fiber cleaner has a patented 360° rotating cleaning concept for extra wide cleaning in just one step with different nozzles for each connector. In addition, this glass fiber cleaner contains a lint-free microfiber cloth and is made of electrostatically safe material.
